DoubleCOOL
SUSTAINABLE COOLING SOLUTIONS

SWING 2 HINGED DOOR

DESCRIPTION

Find the cooler cabinet door solution to suit your store, your timeframe, your budget and your customers. When specifying completely new OEM refrigerated cabinets, DoubleCOOL's Swing 2 Hinged Doors are made-to-measure to fit your exact specification.

DOUBLE UP ON ENERGY SAVING

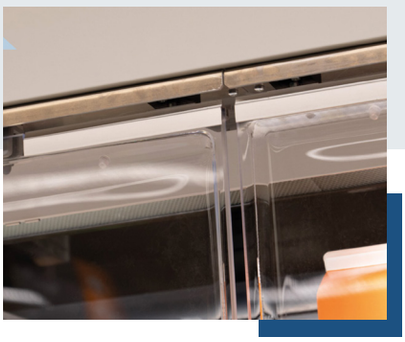
DoubleCOOL refrigerator doors are great for the environment. Reduce electricity costs by up to 60%.

DOUBLE UP ON QUALITY

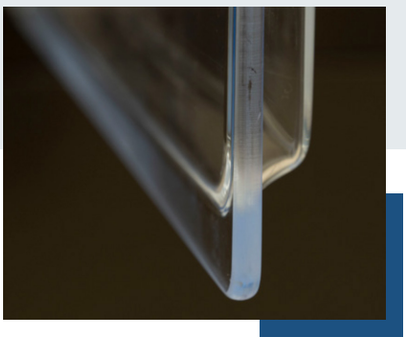
We invented unique, high quality, lightweight, double pane acrylic cabinet door solutions.

DOUBLE UP ON VISIBILITY

Frameless, condensation free, UV stable fridge doors that will show off your produce in the very best light.



Slim design of the invisible hinge creates maximum visibility of stock.



All corners have soft round edges.

Added safety for a gentle and quiet closing door.

NEW

Easy to construct with new refrigeration cabinets working in collaboration with manufacturers. Typically cost saving as less manufacturing cost.

INSTALLATION

After a site visit, we will confirm your exact refrigeration door requirements, either a stock item or bespoke model. Installation is precise, swift and carried out to suit your business, causing minimum disruption and ensuring you keep the doors of your business open. Where possible we will work collaboratively with your maintenance team and refrigeration engineers to minimise installation inconvenience.

ENERGY SAVING

DoubleCOOL Swing 2 Hinged Doors are great for the environment saving energy and are 100% recyclable. They are proven to reduce electricity costs by up to 60% compared to open cabinets. Improved temperature distribution reduces food waste and increases the technical lifetime of the refrigeration system.

FEATURES AND BENEFITS

- Temperature consistency resulting in better food quality.
- Double pane cast acrylic is robust and built to last.
- Shatterproof and resistant to trolley impacts.
- Scratchproof, UV stable and condensation free.
